## Intelligent Environments Appointed as Distributor in New Zealand

Posted By Aaron Green - 20 May, 2015

We are pleased to announce that Intelligent Environments Limited have been appointed as the exclusive distributor of CommandFusion hardware covering the region of New Zealand. Intelligent Environments (IEL) believe that Command Fusion automation and control products will be well accepted in the New Zealand AV market due to their flexibility and innovative solutions.

CommandFusion director Jarrod Bell believes that the appointment of a new distributor in New Zealand is an important step for the company. He says it will make CommandFusion products much more accessible to the existing NZ customer base by providing localised stock and high quality support and training services.

*We are excited about the role CommandFusion can play in commercial lighting control, it will allow us to quickly and easily add a friendly interface and scheduling system to products that traditionally lack these features.*

— Paul Harris, General Manager at Intelligent Environments

### About Intelligent Environments

100% kiwi owned and operated, Intelligent Environments was established in 2007 by Paul and Nikki Harris. Despite the challenge of the economic downturn, the company has grown to become a leading player in the design and installation of residential and commercial control systems.

Paul Harris is well known and respected in the industry, with many years of experience on the management teams of leading manufacturers/suppliers of energy management and home automation systems.

### Available Now

CommandFusion Automation Hardware is available in New Zealand from Intelligent Environments Limited:
