

# 15 APR AV Technik Waidhofer Appointed as Distributor Covering Austria

Posted By Aaron Green - 15 Apr, 2014

For our second distribution announcement in the last week, we are happy to let everyone know that AV Technik Waidhofer have been appointed as the exclusive distributor of CommandFusion hardware products covering the region of Austria.

The CommandFusion hardware range fits in well with AV Technik's current product lineup. It provides a powerful, modular and cost effective alternative to some of the more expensive control systems currently available in the region. With a large dealer network already in place, AV Technik are enthusiastic about the possibilities that the hardware range brings to their customer's projects.

*The CommandFusion products fill a gap in the marketplace that has been there for years. Features they have been asking for at a price they can afford to pay, our dealers will love it!*

— Sebastian Waidhofer, Managing Director at AV Technik

## About AV Technik Waidhofer

AV- Technik Waidhofer GmbH was founded in 2004 and is a leading provider of AV-Equipment and Systems. In addition to selling high quality projection and display systems as well as audio and effect lighting equipment we offer our customers an extensive range of services. A competent team of specialists will help dealers in the planning, and development of systems. The expertise, experience and the technical tools of AV Technik provides their business partners the assurance that all tasks are properly and punctually fulfilled.
